The chief coordinator for distribution of aid to health care institutions was Dr. Hayan Bahnan, and distribution for educational institutions and non-governmental organizations was conducted by local NGO Genesis Project and its coordinator Sasa Saric.

Distribution coordinated by local NGO Genesis Project, directed to educational institutions and local non-governmental organizations was conducted by plan and without any difficulties.

Regarding distribution to health care institutions we came up to misunderstanding and bad cooperation from some managers of health care institutions.

But, nevertheless humanitarian aid came to beneficiaries from all over Republika Srpska (Banja Luka, Sipovo, Gradiska, Kozarska Dubica, itd.)

In addition, we are enclosing You:

- a) bills of lading for each organization,
- b) signed statements about type and quantity of humanitarian aid received by each organizations,
- c) photographs of conducted distribution,
- d) translation of statement signed by each organization that received aid

In hope that we will continue with our cooperation, with respect,

Dijana Pejic, local humanitarian organization Genesis Project, Banja Luka, Bosnia&Herzegovina
